About & Education

I am Duong Thanh Dat, a Software Engineering student at HUTECH (2022-2026), GPA 3.05/4.0. I have a Full-stack foundation with Node.js, .NET, and ReactJS; with experience in REST API development, microservices architecture, and database optimization.

Aiming for the Software Developer role at HUTECH Library Center, I want to maintain stable existing systems and build features for document management, user access control, and smart search support.

Technical Skills

Backend: Node.js, .NET, Python; REST API development

Frontend: ReactJS, NextJS, Flutter

Database: MySQL, SQL Server, PostgreSQL, MongoDB

Tools: Git, Docker, GitLab, VPS deployment

Library-readiness: System integration, user access control, stable operations

Awards

3RD PRIZE HUTECH CODEWAR — 2024

HUTECH University of Technology

University-level programming competition

MY FIRST WEBSITE (WORDPRESS) — 2024

Web Development Award

First website project using WordPress

Work Experience

NASANI – WEB SALES — 12/2025 - 01/2026

Web solutions consulting

- Assessed client needs, advised website solutions, and proposed suitable implementation roadmaps
- Collaborated with the technical team as a business bridge between clients and developers

INTERN — 15/08/2025 - 30/09/2025

Digital Transformation Center

- Guided internal users on VNPT software usage and supported troubleshooting
- Collected feedback, documented issues clearly, and transferred requests to the technical team

INTERN — 05/2025 - 08/2025

HDBank

- Supported system operations and standardized technical documentation
- Learned AWS, AI/ML, security, and software testing under banking processes

SERVER ADMINISTRATOR — 11/2018 - 4/2019

Minecraft Server with BungeeCord (Java)

- Operated servers and gained hands-on DNS, hosting, and VPS knowledge
- Built knowledge in server security, Java, and small operations-team coordination

Projects

ARV ERA VIETNAM WEBSITE — 03/2026

Freelancer – Web Design & Frontend Development

Designed and implemented arv.erasvietnam.com; analyzed requirements, built responsive UI, and handed over operation documentation to the client.

VIET AUTOESCUELA — 03/2026

Freelancer - Next.js & Node.js

Developed a bilingual driving-theory learning platform; implemented quiz APIs, single-session authentication, and a microservices architecture with Node.js, MySQL, and Media CDN.

RWA TOKEN GOLD — 06/2025 - 11/2025

NextJS & Blockchain

Built the RWA GOLD platform for online trading and lending; contributed to NextJS frontend implementation, blockchain business-flow integration, and data-security testing.
